

What If Your Child Was One of Them?

By Patty Guerrero

Relatives and teachers from Mexico are on tour of the U.S. addressing what are believed to be the root causes of the disappearances of 42 innocent young students from Ayotzinapa teachers' college in the city of Iguala, in the state of Guerrero, Mexico: governments enabling drug cartels.

Patty Guerrero and Debbie Andresen of Women Against Military Madness joined a protest at the Mexican Consulate in St. Paul.
