

Dear Senator Smith,

Nuclear weapons remain the only weapons of mass destruction not yet prohibited under international law, despite their imminent danger and their inhumane and indiscriminate nature.

It is imperative that the U.S. take the nuclear option “off the table” NOW, and join the nations in signing and ratifying the United Nations Treaty on the Prohibition of Nuclear Weapons.

I ask you to publicly support this Treaty and take immediate steps to:

- (1) stop the trillion dollar modernization of the U.S. nuclear arsenal
- (2) take all nuclear weapons off hair-trigger alert
- (3) ratify the Comprehensive Test Ban Treaty.

We must not wait for the inevitable nuclear catastrophe before we act!
